ALUMINUM QUICK CONNECT HANDLES

Product Features:

1. Lightweight aluminum construction enhances cleaning efficiency.
2. Quick-connect design makes assembly and replacement easier.
3. Ergonomic design handles provide a comfortable feeling and maneuverability.
4. 6415 can be used with TRUST threaded tools..

6341

STEEL MOP HANDLES

Product Features:

1. Durable and corrosion-resistant metal head.
2. 137 cm and 152 cm lengths optional.

6331

HINGED SIDE GATE MOP HANDLES

Product Features:

1. Thumb release mechanism permits mop replacement without touching dirty mop.
2. The handle is light and durable high-performance composite material.

6321

CLAMP STYLE MOP HANDLES

Product Features:

1. Threaded-tight structure ensures secure holding of mop.
2. The handle is light and durable high-performance composite material.
3. Threaded-bolt head for quick and easy mop changes.

6311

WET MOP HANDLES

Product Features:

1. Large plastic mop head and threaded-tight structure ensure holding of mop.
2. The handle is light and durable high-performance composite material.
3. Patent design allows for easy mop replacement.

Material Handling

Trust utility carts and platform trucks allow fast and efficient handling, which ensures food quality and reduces waste.

Food Storage

Use our storage bins and containers to ensure that ingredients are dry, safe and free from external contamination.

Cooking

Food pans make it easier to distribute food and measure portions accurately.

Food Transporting

Our insulated boxes maintain their contents at a constant temperature during transport, ensuring food quality.

Waste Management

Foot-operated pedal waste bins to avoid hand contact with contaminants and prevent cross contamination.

Cleaning

Microfiber cleaning tools for efficient and fast cleaning and disinfection.

CLEABOX ROOM SERVICE CART

1. A fast-moving room service cart for room cleaning and environmental maintenance.
2. The surface coating is waterproof and oil proof to ensure the good appearance.
3. High-performance materials and high-strength structure ensure daily normal use.
4. Support plate with heavy-duty structure can prolong service life.
5. Adjustable partition plates allow you to orderly and neatly place daily necessities.
6. The side tool bag can securely fix the telescopic rod (6411).
7. The waterproof side bag for the toilet brush to keep the floor clean and tidy.
8. Tool basket (5084) for cleaning tools and cleaning materials;

Multiple Solutions

Our range includes products of various sizes, colors and materials and offers practical waste solutions for any area of the workplace.

Sustainable Development

Good product design, sound recyclability and durability, and use of environmentally friendly materials define our efforts towards environmental sustainability.

Smarter Decorative Receptacles

We provide customers with comprehensive, high efficiency and cost-effective waste solutions. Trust decorative receptacles offer a modern design, high quality surface treatment and long lasting performance both indoors and outdoors.

EUROCOMB® FULL SIZE GLASS RACKS

PRODUCT FEATURES:

1. Designed for maximum capacity per rack, reducing the number of washing cycles and ultimately saving time and money.
2. Engineered for better washing.
3. Enclosed racks and spacers prevent finger marking and keep dirt away.
4. Color-coded tray racks for easy inventory management.
5. Up to 6 different heights by adding extenders to the base rack.
6. Optional Quick Check Label Clips for easy content identification.
7. With the optional Dolly inventory can be moved easily and safely from one location to another.

9362

KID&COOL YOUTH SEATS

PRODUCT FEATURES:

1. Designed with safety and cleanliness in mind for your youngest patrons.
2. Complies with ASTM F404-18 and TUV standards.
3. Modern appearance plus ant-microbial technologies allow easier cleaning than wooden seats.
4. Microban® anti-microbial technologies provide full protection and resist odor and stain due to bacteria.
5. Stackable for easy storage.

8011

MICROBAN®

MICROBAN ANTI-MICROBIAL PROTECTION TECHNOLOGIES

1. Microban® anti-microbial technologies provide full protection by working to destroy or inhibit the growth and reproduction of bacteria, mold and mildew.
2. Microban® anti-microbial ingredients have been added to the baby changing station during its production for permanent protection.

Plastic sample without Microban® anti-microbial ingredients.

Plastic sample with Microban® anti-microbial ingredients.

8013

Optional Non-slip Feet Pad Set (8016) can increase the stability of the child seat

*Microban® is the registered owner of Microban® trademark, and reserves all the rights. Microban® anti-microbial protection is not designed to protect users against disease causing micro-organisms and is not a substitute for routine cleaning.

GLASS RACK TROLLEYS

PRODUCT FEATURES:

1. Suitable for carrying cup racks.
2. Reduces work load and promotes efficiency.
3. Plastic reticulation construction won't dent, chip, rust and is sturdy and reliable.
4. Non-marking swivel castors ensure easy maneuverability.
5. Concave design captures water left by glasses.

GRP NON-SLIP TRAYS

PRODUCT FEATURES:

1. GRP construction ensures strength, durability, resistance to impact and chemical corrosion.
2. Non-slip surface prevents items from falling off.
3. Steel and aluminum reinforced ring adds to strength and rigidity and prevents crushing and deformation.
4. Designed with a stacking boss to allow air circulation, facilitate pallet drying and offer easy placement.
5. Complies with relevant NSF inspection standards.
